

Process more material in less time with fewer people and less equipment.

BE MORE PRODUCTIVE

That's the promise with a Canrack custom material handling solution. For over 35 years Canrack has been improving Safety, Quality and Productivity for steel service centers. Learn how their "engineered system" approach can provide a productivity boost for you.

BUNDLE SPLITTER

RACKING AND STORAGE

CNC SHEAR FEED TABLE

BAR ORDER FILLING

HERE ARE SOME OF THE THINGS WE DO

Bundle Splitter for sheet order filling

- Pick sheet orders efficiently and totally scratch free and without lifting
- Allows your CTL to run master stacks for tonnage increase of 15-30%

Accu-Cut CNC Shear Feed Table improves accuracy and saves time

- Feed up to 1/4" sheet, hold and shear to +/-0.005" tolerance
- Touch screen electronics eliminates setup time and need for front/back gauges

Racking and Storage systems tailored to your inventory mix

- Reduce material damage and eliminate manual handling
- Improve output and safety, reduce labor costs

Bar Order Filling and Packaging Stations

- Order filling and packaging in 3-4 minute cycles
- Eliminate heavy lifting, increase productivity
