

Intelligent racking.

How will you pay for experience?

If you're planning a bar or sheet racking project there are some critical questions to ask. Does your supplier specialize in racking for metal centers? Do they have custom systems engineering, manufacturing, installation and operator training in house? If not, you'll probably be depending on your own experience to get the job right.

Call us today for details.

Canrack Storage Systems Inc.
6625 Tomken Road, Ste 209
Mississauga, Ontario, Canada L5T 2C2
Fax: 905-564-6253
Email: info@canrack.com

Go to the company that has been engineering metal center racking systems for the last 30 years. You'll notice a big difference...from our day-to-day working knowledge of service centers, to our consultative 'ask the right questions' approach, to our start-to-finish turnkey service.

With Canrack you know the price will be fair, the work will be guaranteed, and there will be no costly surprises... especially when it comes to experience!
